

EU10i

- Stylish and ergonomic design. Lightweight and compact, easy to carry, transport and store.
 - The perfect power source for people on the move, or for those people left stranded without electricity.
 - Inverter technology delivers super stable clean power with a pure sine wave form - essential for powering sensitive electronics and computers.
 - Superb efficiency with EcoThrottle, only running as fast as the load demands, improving fuel consumption and extending engine life.
 - Super quiet operation with noise reducing casing and acoustic panelling.
 - Parallel operation - Optional cable allows two of the same units to be linked together to provide double the rated output.
 - DC Output up to 12A to charge batteries (optional cable required).
-
- Max output 1000W
 - Rated output 900W
 - Noise level @ 7m 52dB(a)
 - Run time at variable load 3.6 to 8 hours.
 - Weight 13 kg
 - Dimensions: L: 450, W: 240, H: 380
